# THE TEL AVIV UNIVERSITY EXCAVATIONS IN ANCIENT JAFFA

Vol. I

Meir Edrey, Boaz Gross and Ze'ev Herzog

This volume presents the results of three archaeological projects conducted in Jaffa under the auspices of the Sonia and Marco Nadler Institute of Archaeology of Tel Aviv University. The first is the 1997 and 1999 excavations on Tel Yafo, the upper mound of ancient Jaffa; the second is the 2010 salvage excavation in the area of the Saint Louis French Hospital; and the third is the 2011 salvage excavation of the Kishle Compound. The volume is published by the Sonia and Marco Nadler Institute of Archaeology within the framework of its Salvage Excavation Reports series (No. 12). A fourth excavation, conducted on the eastern outskirts of Tel Yafo, in the Ganor Compound, will be published in a second volume. The documentation of these projects considerably enriches the scientific community's understanding of the history of ancient Jaffa through the ages.
